ACME OUTDOOR

Welcome to the club, Priya.

Thanks for joining us, Priya. I wanted to say hello on real paper, not just in your inbox.

Here's how to get Northwind set up in ten minutes, and who to call if anything feels slow.

Sam, founder

Sedona, from our first trip

ACME OUTDOOR
Gear for the long way round

Getting Northwind set up

1. **Invite your team**
   Everyone gets their own login, and it takes about a minute.

2. **Connect your data**
   Bring in what you already use so nothing gets typed twice.

3. **Book a call with us**
   We'll walk Northwind through it and answer anything that feels slow.

P.S. A short note from Sam about getting Northwind set up.
